Subject: EPA Comments on FS Key Elements Check-in
Date: 07/20/2011 01:34 PM

Chip and Kristine,

Thank you for providing the EPA comments on the June 21st and 22nd FS Key Elements check in meeting materials. As you know, many of these directed changes require substantial revisions to material which was presented in June and which has been used since then in further developing the draft FS.

The LWG agrees to meet with EPA as soon as possible in order to discuss efficient methods for incorporating the directed changes and to determine how much additional time will be required to make these revisions. In the meantime, The LWG requests that EPA clarify whether comments 5, 8, 10, 14, 15 and 23 are directive and, if so, the specific nature of the directive. The LWG further requests EPA confirmation that:

- (1) Comments 1, 2, 4, 16-19, 21, 22, 25, 27 (and, as applicable 5, 14, 15 and 23) are directive, and the deadline for disputing these is July 29;
- (2) Comments 9, 11, 12 (and, as applicable, 8 and 10) are directive, and the deadline for disputing these is August 12; and
- (3) No other comments are directive.

Bob
